GEELONG :
PRINTED BY JAMES CURTIS, 25, MERCER STREET.

TO

ALEXANDER THOMSON, ESQ., M.L.A.,
MAYOR OF GEELONG.

HONORED SIR,—

Without permission I allow myself the honor to commend to your notice the present Compilation, assuming that every one knows, or every one ought to know, the paternal character you sustain to the community it represents,—a community which has been ushered into a position of social relationship and order, unprecedented in any other than in a Victorian Colony, as it regards the period of its history, the establishment and progress of its resources and developments, and the eminence it has attained.

Varied as have been the opinions suggested in reference to a WANT for which these pages are designed to supply, and dissimilar the conclusions upon the extent and character of the arrangement which influenced the Compiler in its execution, it will be obvious that painstaking has not been the least part of it, if allowance be made for the incredible short period in which it has been produced. How far it will bear the criticism its Prospectus may subject it to—"as a Directory, *like* its predecessors, here and elsewhere, designed to comprehend succinctly, and in correct form, all such references as the professional and trading community requires; and, *unlike* its predecessors, in that the information it embodies will be found so ample and complete, as to combine within moderate limits, an amount of local and general intelligence so extensive as to render it a Household Oracle, and Visitor's Guide,"—has to be determined.

The Compiler respectfully acknowledges his obligations to the public for the encouragement awarded his undertaking; and on behalf of the public, his best thanks for the readiness the materials

required were furnished by the heads of the different departments ; a few—very few—exceptions to the contrary were met with, and these as they are *a class* who contemn “Geelong as not worth it,”—little as to “walk over it in half a day,”—“knows every place and person in it,”—and “will soon leave it.” I presume, Sir, you will sanction such threats with an exodus at their earliest convenience. Allusion to these would not be made, but for the very great contrast afforded by a commanding majority, who, of steady purpose and good feeling, associate their united energies to promote whatever is beneficial to its trading, commercial, and agricultural interests ;—its social, scientific, religious, and philanthropic institutions ;—and claim for Geelong an honorable standing in the exercise and enjoyment of her legitimate rights and privileges, and a just appreciation of them.

I am,
 HONORED SIR,
 Your Obedient Servant,
 JOHN TANNER.

STREET DIRECTORY,

CONTAINS, in the principal streets, the names of persons, — their business or professions as they occur, right and left; but in the minor streets and lanes this rule is dispensed with. The letter l. after the name must be generally understood to mean labourer of some kind, it being the parties present calling. p. r. (private residence) refers to persons who do not reside at their place of business or professional engagements.

The order observed in this arrangement is following the route by which the several streets and places were taken—thus commencing at the Beach and terminating at the Barwon Bridge.

East of Moorabool street will comprise the First Division.

The Second Division, by the same rule, includes all the streets, &c., west of Moorabool street, from La Trobe Terrace, north, at its junction with Pakington street, to the Barwon Bridge.

The Third Division—all streets west of Pakington street.

CHAIRMAN : THE RIGHT HON. LORD ERNEST BRUCE, M.P.

This Company offers to the public very important advantages, and affords by its large Paid-up Capital, Accumulated Fund, and the

N.B.—Particular attention is requested to the fact that this Company affords not only the very ample security of the unlimited liability of a well-known and influential proprietary of 1,000 in number, a capital of £1,259,760, an invested fund of £350,000, and a large and increasing revenue (£170,000 in 1856), but likewise an additional security which cannot be offered by any Colonial Office in the unlimited field over which the operations of this Company are extended, being represented in almost every part of the world,—it being a fact well known to every one acquainted with the principles of Insurance business that the more extensive the field of operations the more ample the security, not only to the Insurance Company, but to its constituents

By reference to the Conditions of this Office it will be found that this Company does not reserve to itself the option of delaying payment of claims for 60 days after adjustment (as is done by the Colonial offices,); but all losses are immediately settled, on being satisfactorily ascertained.

A proportionate reduction of the fee will be made in the case of pupils admitted after the commencement of the quarter.

The course of study will include instruction in French, German, drawing and singing, without extra charge to the pupils.

The Vacations will comprise nine days at Easter, seven days at Mid-winter, seven days at Michaelmas, fourteen days at Christmas, the Queen's birthday, and the anniversary of the Victorian independence.

A boarding establishment, under the license of the patrons, and the superintendence of the Rev. Ingram Moodie, is now open for the reception of pupils from the country, at the fixed rate of £50 a year for each pupil, exclusive of school fees.
